This weeks speaker: Introduction by Shanna Johnston

Dr Terry Tucker - Optometrist

Cataract Surgery - Don't Be Afraid of It

Terry joined our club in 1987 and has done just about everything a member could do from serving as a board member, is one of three members to have served multiple terms as President, is a multiple Paul Harris Fellow, has been named our Rotarian of the Year, and has chaired our Golf Tournament on multiple occasions.

He also has always been quick to volunteer for most anything our club gets involved in. Just ask, and Terry will normally have an opinion and be willing to help out.

Today, Terry is going to address Cataract Surgery and why you should **NOT BE AFRAID OF IT**. As we get older and our eyes age, the possibility of developing cataracts is significant. According to Google statistics: 50% of people over 75 and 60% of people over 80 will develop cataracts and women are somewhat more susceptible to developing them. When someone starts thinking of having their eyes cut on, it is a bit scary, one slip as they say, and will we be able to SEE? It can be a scary and stressful situation that we are looking at. As an optometrist, Terry has seen more than his share of people with CATARACTS and he is the one who recommends they see an ophthalmologist to have cataract surgery. He then is usually in charge of the follow up medical care to make sure the surgery is having its desired effects. Bottom line, Terry has seen it all and knows that the surgery is something that you should be concerned about, but it is also something that you should **NOT BE AFRAID OF**.

PLEASE WELCOME OUR OWN DR TERRY TUCKER !!!

The Four Way Test Of the Things We Think, Say, and Do

- First, is it the truth?
- Second, is it fair to all concerned?
- Third, will it build goodwill and better friendships?
- Fourth, will it be beneficial to all concerned?

Of course it will, Now go out and live it!
